

## SRJC SR IC Mural Project

### Space Dimensions & Images

Below are approximate dimensions and images of the full common space in the SR Intercultural Center. We are sharing with y'all the full images of the common space to invite artists to use their creativity on where, how much space, and how they envision the mural to interact with the room. We know we want the mural to be a vast part of the full space, at minimum, we would like the mural to encompass more than 1 wall segment. However, we are open to seeing the artists vision and interpretation on both subject matter as well as locations. The dimensions are averages, finalist will be provided with exact dimensions.

## North Walls

Wall segment in middle:  
Length~ 115"

Wall segment on the right:  
Length~ 62"

## East wall

Wall segment in the middle with  
alarm  
Length ~70"

## South Wall

Top left length of wall segment ~72"  
Wall segment left of cabinet ~61"  
Wall segment above cabinet (will hold large interactive flat panel) ~40"

Wall segment between cabinet and door ~140"

## West Wall

Wall segment length ~72"
